

The Fifty Monkey Ferris Wheel

Built by best-in-class Ferris wheel innovator CHANCE, Inc., the Fifty Monkey Ferris Wheel is engineered for long-term safety and success. Uniquely designed to spotlight the Santa Ana Zoo's Fifty Monkey heritage, each fully-contained gondola will have an associated educational collector's card with a description of one of the Santa Ana Zoo's species of fifty monkeys. Nestled between the Zoofari Express Train and the Conservation Carousel, the Fifty Monkey Ferris Wheel is a perfect finishing touch for our local Zoo.
